

Label Location

The diagram consists of a large black-outlined rectangle representing the front side of a device. To its left, there is a smaller orange-outlined rectangle labeled 'Label Location'. A black arrow points from the bottom center of this orange rectangle to the left edge of the large black rectangle, indicating the specific location of the label on the device's front side.

Label Location

Front side

The Label will be put inside the SIM card compartment, does not put on the SIM tray.
The SIM card compartment will be a permanently attached feature of this device.
The Label is visible to the user as they purchase the product and install the SIM card.
